Tools & AI: Figma (Auto-Layout, Variables, Tokens), Jira, AI-Assisted Workflows (Cursor, Claude, v0 by Vercel), Git, Responsive Web Design

Frontend: HTML5, CSS3, Tailwind CSS, Component Architecture, Developer Handoff

PROFESSIONAL EXPERIENCE

Product Designer · UI/UX Designer | J7 Technology Solutions Pvt Ltd, Tenkasi March 2024 – Present

Index Waves · Stock Trading Signals App · [Google Play](https://play.google.com/store/apps/details?id=com.indexwaves) · 500+ Downloads, 100+ DAU

- **0!1 Mobile Trading UX** Designed high-urgency call cards showing entry, dual targets, stop-loss, and live status badges, reducing signal execution time to under 3 seconds.
- **Dual Interfaces:** Architected both the trader-facing Android app and an analyst command center for publishing and managing live market calls.
- **Design System:** Created a dark-mode design system with monospace tags extended across sibling trading platforms (MCX Premier & Equity Emphas).

IppoBill SaaS · GST Billing, Inventory & POS Management · ippobill.com

- **MSME Platform Architecture:** Designed complete platform for Indian MSMEs: billing, GST invoicing, inventory tracking, and customer ledgers across web and mobile.
- **POS Checkout Optimization:** Streamlined counter billing by eliminating 4 manual steps with auto-populated HSN codes and tax splits from product catalogs.

CareZhen & Setter · Hospital Management & US Healthcare Appointment SaaS · carezhen.com

- **Role-Based Workflows:** Designed tailored portals for doctors, receptionists, pharmacists, and admins to ensure zero clinical workflow confusion.
- **Modular Onboarding & Compliance:** Created self-serve setup toggles for US clinic networks and surfaced DPDR/SMS compliance warnings inline.

Trackgle & Goyab · B2B Sprint & Time Tracking (trackgle.jseven.in) & Android Productivity App

- **Trackgle SaaS:** Designed and shipped full agile sprint board, timesheets, and leave management in a single sprint via AI-assisted workflows.
- **Goyab Mobile App:** Designed zero-friction local-first content organizer with Smart Reminders and encrypted Google Drive backup.

Layline Campaigns · SMS & Email Campaign Platform for Healthcare Operators · campaigns.layline.live

- **Single-Page Builder:** Designed 4-step campaign builder on one continuous scroll, eliminating context loss for frequently interrupted healthcare staff.
- **Send-Queue Lifecycle:** Engineered 6-state vocabulary (Ready, Sending, Resting, Paused, Stopped, Completed) mapping directly to backend queues.

EDUCATION

Bachelor of Information Technology (B.Tech / B.Sc IT) | Karpagam University, Coimbatore

2017 – 2021
